

KEEP ON MOVING SERVICE CENTER INTERNATIONAL PROJECTS

STORM

Technology and Service for
engines and prime movers

With our new Service Center International Projects we supply service solutions – anywhere you need us.

As an OEM – independent engine specialist we will answer all your questions and needs regarding engines and prime movers.

With a high level of service experience for over 70 years we provide individual service for combustion

engines of all current types between 100 and 7000 kW or more depending on engine type:

- Project management
- Optimization and maintenance
- Providing of highly skilled supervisors
- Deployment of service engineers abroad
- Technical support
- Technical assistance in situ
- Project documentation

Reliable and customized service with our MOBIS[®], PRODIS[®] and ECOS[®] service program, for example:

- PRODIS[®] Line boring
- Maintenance of reciprocating piston compressors in accordance with the PRODIS[®] service plan
- ECOS[®] Overhaul of cylinder heads
- Minor ECOS[®] Engine overhaul
- Major ECOS[®] Engine overhaul

We are on the move
